

Safely Storing your Futon Mattress:

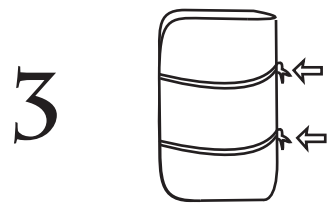

Tips from Bedworks

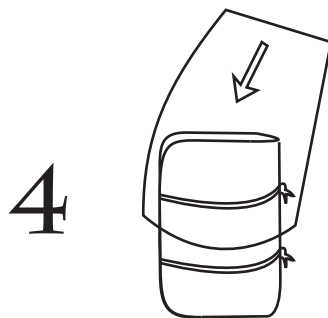

Start with the futon flat on your sofa bed or bed frame.

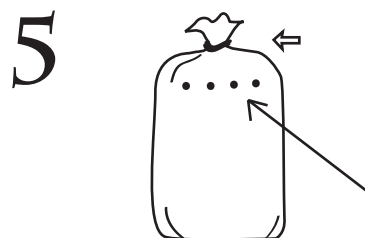

Fold it in half.

Tie it tight with the two long cloth bands in our storage kit.

Stand it upright and slip the plastic mattress bag over it.

Cinch bag closed with black plastic tie. Store in a dry place off the floor.

If stored in the summer, poke several 1" holes in the top of the bag to let the humidity escape.
